*Village Hall Modernisation QS Cost Plan Estimates 05th March 2025
@ **£1,258,000** Based on Current Concept Design Schemes*

Village Hall Modernisation Committee are all involved in contributing considerable time and resources to research the impact of the Sizewell C Construction is having on the village community and wider villages. Community may already have felt the impact of the increase in Traffic through the village and the inconvenience of the Construction works currently on-going for the entrance to the new Southern Park and Ride Site North of the village

Sizewell C Community Foundation Funding Panel have recommended we demonstrate in our grant application how SZC Construction will impact the village and why funding hall modernisation will benefit the **Communities Needs** with improved hall and facilities we believe a modern hall will help reduce the overwhelming changes that the SZC construction brings the village and wider community

Parish Council Village Hall Modernisation Committee Health Check document has now been completed and issued to Community Action Suffolk; document will be available for review on PC web site soon

Hall Modernisation Survey Monkey Questionnaire

Community Impact Study for Sizewell C Project survey has been posted around village and is available on PC web site and media platforms for community to Scan and complete survey/questionnaire it is vital we receive feed-back from the community enabling us to demonstrate the overall impact of SZC construction is having on the village this will greatly assist to demonstrate community support for our SZC grant application due for **submission by no later than 20th July 2025**
