## **Proposal to prepare reapplication to Sizewell C Community Fund**

This proposal sets out the anticipated schedule of work involved and will give you an idea about the level of work involved.

As per our telephone conversation I would propose to have put together this proposal for an application re-submission to the Sizewell C Community Fund with the deadline of 20<sup>th</sup> July.

After looking through the information you sent to me, I wonder if you could please send further information on the following:

- Details of the possibility of engagement or partnering with the tennis courts, the football club, the George or any other local initiatives.
- Will you be undertaking the Healthcheck with CAS
- Any research undertaken, or information you have on what kind of impact SZC is having on WM, this would need to include evidence
- Would the funding approach be via the Parish Council, or the CIO
- Do you have stats on no.s of SZC workers moving into the area, what their demographic might be
- Do you have access to surveys or consultation which has been undertaken regarding the impact of SZC
- Any information on WM as a whole, e.g. population, issues affecting people, demographics, etc

If you don't have information on any of the above I would need to obtain this which would increase my fee.

To undertake a resubmission of your application with all information provided would cost £1,750.

Additional days worked to pull together any of the additional information requested above would be charged a day rate of £300 per day.

I look forward to hearing from you.

Kind regards

Sarah
