

Wickham Market Parish Council

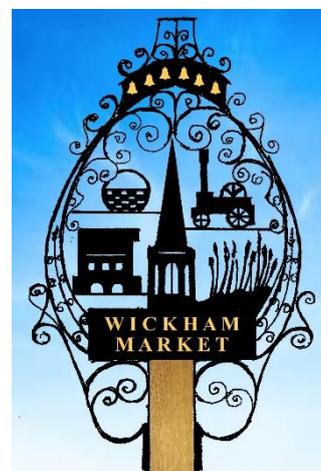

Councillor John Horsnell

Friday 12th November 2021

Brief Report for Meeting Monday 15th November 2021

Village Sign

- Kelvin Gray kindly arranged for an Architect to provide an outline auto-cad DWG drawing of Village Sign ironwork this was issued to our Contractor Riverside Engineering Limited but they were unable to work up drawing and provide final scaled drawing for our approval and contractor has advised they are unable to provide any cost saving for this element of drawing work
- Contacted GC Robertson Structural Engineers and they can provide detailed DWG CAD scaled drawing of ironwork for our approval for the **Sum of £300.00 plus VAT** therefore we require PC financial approval for this unforeseen additional expenditure
- Once drawing ironwork has been approved by the PC Riverside Engineering will progress and complete all fabrication works
- Upon completion of fabrication works by Riverside Engineering an approximate Village Sign installation date can be agreed
- Copy of Village Sign Artwork attached

Village Hall Liaising Officer

MSG (Modernisation Steering Group)

- Chairman Pete Holden is sadly leaving group due to personal reasons
- Village Hall structural survey work has commenced this week and is progressing
- Wi-Fi installation investigation/enquiries & cost estimates are progressing we have been advised by the Small Community Grant Board that we could be eligible for a grant that may cover installation cost
- MSG Group are actively seeking new members
